Værelse : 5

Badeværelse : 2

Rustic country house in Jesús Pobre surrounded by nature, in a quiet area with no noise from cars and easy access. Completely flat plot of 1,600m². The house has 200m² and is built all on one floor, it is distributed in a living-dining room with fireplace, open kitchen with laundry room, five large bedrooms, two bathrooms and several large terraces. It also has several storage rooms, BBQ, and a terrace with a pergola outside. The house does need some renovation although the roof and the windows have already been replaced. Very large garden with vegetation and native trees, patio and large parking area, this really is a little paradise.
